Structure and details

High-quality housing construction
The housing is made of 5mm thick aluminium to give it strength, durability and excellent heat dissipation properties for a long life.

5mm

High-end material
Made from high quality aluminium material, specially designed for high end projects.

PF > 0.9, CRI > 80

Easy to match different styles
Four different color options made to match most of design requirements.

Glare-proof lighting
This fitting will deliver glare-free lighting in almost any installation.
